Vandalism Draws Lad Probation

A 16-year-old boy who admitted participating in the vandalism of Canyon High School was placed on juvenile probation in county court here Friday.

Pronouncing sentence was County Judge Lloyd King.

The boy's parents were required to make restitution for one fourth of the near $10,000 damage done in the vandalism

Judge King explained that since four were involved in the wrecking of the school, he felt that restitution should be prorated.

Three older youths face felony charges as a result of the vandalism.

Judge King set the juvenile's probation bond at $750 and appointed Sheriff L. S. "Slim" Johnston probation officer.

Judge King explained that the juvenile will remain on probation until his 17th birthday which will be in November.

In event terms of probation are not kept Judge King said, the boy can be sent to the state reform school at Gatesville.

School Superintendent Huelyn Laycock testified that damage to the school will run to from $7,000 to $9,000. He said a definite figure on damage will be set this week.

Laycock said the boy will not be accepted back in school either now or at mid-term. He said that if the youth lives up to the terms of his probation he may be given consideration next September.

WT Closes Cafeteria, Boys Dorm

West Texas State University will temporarily close West Dining Hall in the old student union building and Stafford Hall at the beginning of the spring semester.

Virgil Henson, business manager, said the dining hall and residence hall were being closed because the facilities were not needed.

He added that the temporary closings would save WTSU the cost of operating the two buildings.

Approximately 500 students were eating at West Dining Hall at the beginning of the fall semester, he said, while approximately 1,000 were eating at East Dining Hall.

The two cafeterias have a capacity of about 2,500 students, he said.

WTSU normally loses between 200 and 300 students after the fall semester because of scholastic and personal problems.

"We expect no problem at all in feeding the students," Henson said. "Probably we could have fed them all in East Dining Hall last fall."

Randy Breitling is shown here with his grand champion barrow at the Randall County Junior Livestock Show. Randy, a 7-year-old Canyon first grader, says he'll use the money he got from the barrow to build a "new pig barn."

Dean Jones Explains NCAA Council Action

The vote was 131 for and 112 against a proposed constitutional amendment at the NCAA meeting last week in Chicago that would have legalized the practice of reducing athletes' grants-in-aid for infractions of dormitory and scholastic rules.

For levying such fines in the past, West Texas State was put on probation by the NCAA. The probation amounted to little more than a slap on the wrist as it does not bar WTSU grid teams from competing in post-season bowl games.

Dean W. Mitchell Jones, West Texas State University faculty representative to the NCAA, saw the vote as a moral victory for his school.

Because a two-thirds majority was required for passage of a constitutional amendment, the measure failed. It will probably be introduced again next year.

The vote was taken Wednesday, Jan. 13, at the business meeting of the NCAA. One day earlier WTSU had been placed on probation without sanctions for one year for violating an NCAA regulation that would have been changed by the amendment.

The amendment was introduced by representatives from the Big Eight conference.

"Several friends complimented me on the effectiveness of our program," Jones said. "They thought it was a good thing but it just wasn't constitutional."

Had the amendment passed, Jones said, the WTSU probation might have been reconsidered. He added that many at the meeting felt it would have passed had it not been encumbered with other proposals.

"We were a little bit proud of what we were doing," Jones said. "Now we have kids flunking out because we have no way of putting the muscle on them."

Jones emphasized that the NCAA gave WTSU a clean bill of health on all other matters.

"Lots of times freshmen and sophomores haven't awakened to their responsibilities," Jones said.

The men receiving grants-in-aid were fined by deductions from a $15 a month "laundry allowance." Over a three-year period, 201 fines were handed 128 athletes.

Most of the fines were for cutting classes. Others were for a dirty dormitory room, being absent at room check, curfew violations, property damage, and lost equipment.

The probation does not prohibit the Buffaloes from participating in bowl games or from competing for NCAA championships.

Church Plans Construction

Plans are being made for construction of a new church plant by Calvary Baptist Church.

Church members have voted to purchase a block of land near Canyon High School as soon as several obstacles have been overcome.

"First on our list," states Jack Boyett, pastor of the church, "is the selling of our present property on west Fourth Avenue. Then, when we have completed that, we will be arranging financing."

There were several factors influencing the church's decision to construct a new sanctuary and educational facility.

"The present auditorium seats only 200 persons, and at our last Sunday's service, we had to bring in many extra chairs. Enrollment in the Sunday school is now at 301, in

I know that I must be judged by my own judgement of my fellow man; so I hope that I can be forgiven a recurring fear that I have heard the Lord's name taken in vain more in public prayer than in profanity.

Senior FFA Student Shows Grand Champ

Price Records Set In Spirited Auction

George Cox hit the jackpot in the Randall County Junior Livestock Show last week end.

He swept the sheep event and then went on to show his lightweight Hereford steer to the grand championship.

Two Breitling brothers---Randy and Doug---exhibited grand and reserve champions respectively in the swine show.

A brother-sister team made up of Sharon and Mike Hinders took top honors in the dairy division. In fact, the Hinders family missed only one top place in that division. Eddie showed two second place winners, being nudged by brother Mike and sister Sharon, while baby brother David picked up a third place in a classification won by Mike.

Sharon went on to win the showmanship trophy. All showmanship trophies except one presented by the Kiwanis Club for novice showmanship of the show were given by the Farm Bureau.

Bidding was spirited and prices were high at the livestock show sale Saturday night. "It was the best support I've seen in the 14 years I've been associated with the show," said County Agent John Brazzil.

The county agent estimated that stock auctioned Saturday night brought exhibitors around $12,000.

Steers brought an average of 48.5 cents per pound. Sheep brought 72 cents even and hogs brought 41.8 cents.

Cox, an 18-year-old Canyon High School senior, sold his grand champion for $840. It was purchased by Farmers Elevator for an even $1 a pound.

Cox is an FFA boy and has shown animals in the Randall County show for the past seven years. He exhibited as a 4-H Clubber two years before he was old enough for FFA.

He also took first place in both divisions of the sheep department --- Southdown and Crossbreed--- and sold one of his champions for $1.55 a pound to Lair & Williams and the other to Taylor-Evans Farm Stores for 55 cents a pound. The champion Southdown weighed 77 pounds and the Crossbreed weighed 105.

George says he will use the money from his prize animals to further his education at Abilene Christian College where he will major in agriculture.

Rick Hales, a 4-H Club boy, piloted his black angus to first place in his class and then to reserve championship of the show. The animal weighed 858

Blood Is Requested

Open heart surgery was performed on Bob Glazner of Canyon this week in John Sealy Hospital, Galveston.

Glazner, his wife and son have lived in Canyon for about a year. He planned to complete work for his degree this year at West Texas State, but due to illness has been unable to do so.

At least 25 pints of blood, to replace that used in the operation, are urgently needed at the Potter County Memorial Blood Center.

Canyon residents wishing to donate blood may report to the Blood center Monday through Wednesday and Friday from 9 a.m. to 3 p.m., and Thursday from 1 p.m. to 6 p.m.

Donors must be over 21 or have their parents' consent, and must have had no food or drink, excepting water or coffee for four hours before giving blood.

Persons with any blood type may give blood since the center operates on an exchange system.

Gate Opening Request Denied

A request by S. E. Stockton to the Canyon Independent School Board headed the order of business Tuesday night at the regular meeting.

Stockton, developer of the Lake Stockton residential area northeast of Canyon, asked that school bus drivers be allowed to open a gate into the enclosed area.

School bus service to the Lake Stockton and Palisades residential areas was begun Monday. About 40 students are picked up from both areas.

Stockton said the gate was electrically operated and could be opened without the driver leaving the bus. The gate is opened by inserting a card-like key into a control box about 200 feet from the gate.

Dr. Charles Nester asked if the children in the bus wouldn't be cooled excessively when the driver stopped to open the gate. Stockton said it would take just long enough to roll down the window.

"Why do you want to be so private down there?" asked Nester. Stockton said the residents wanted to keep out "excess traffic".

Stockton said he would put a handle on the key so that the bus driver wouldn't have to reach too far, and added that the bus ordinarily reached the gate at 7:15 a.m. The gate is left open for the day at 7:30 a.m.

Jerry LaGrone, school board president, told Stockton that the board had a policy of not allowing bus drivers to open gates and a precedent would be set if his request were granted.

LaGrone asked who opened the gates at 7:30 a.m. and, after learning that one of the residents going to work performed that duty, asked if one of them couldn't get there 15 minutes earlier.

Stockton said he thought that would be an unreasonable request to make. Other board members brought up the numerous gates that had been replaced by less suitable cattle guards because of the board's stand and said that they feared the bus driver would spend an excessive amount of time opening gates if a precedent were set. They also recalled that in the board's agreement to provide bus service to the area, it was set out that the bus driver would not open a gate.

"I didn't think of you not opening an electric gate when it doesn't take any more than 5 seconds," Stockton said. He added that comparing an old-fashioned gate to an electric gate was like comparing "a horse and buggy with an airplane."

LaGrone said, "We've tried desperately to cooperate by getting a bus down there." He asked again why someone from the area couldn't be delegated to open the gate.

"Surely the contribution we're making is worth something to you," Stockton said.

"We're all making a contribution," LaGrone said.

Wesley Cox said that if the driver had 16 keys with handles hanging in the bus it would be a nuisance and made a motion

New Wells Are Drilled

Water District officials this week said 84 new irrigation wells were drilled in Randall County last year.

Figures released show 121 permits were issued. One well was a replacement and there were 16 dry holes.

City Club Meet Set

A meeting of stockholders of Canyon City Club will be held at 8 o'clock Friday night at the club house.

Election of officers will be held.

John Williams, president, will preside over the meeting.

4 Cagers Drop Out At WTSU

Jimmy Viramontes, head basketball coach at West Texas State, announced yesterday that four boys had decided to leave the squad.

Lou Spry, Sports Information Director for West Texas State University, released the following story to The Canyon News:

Marvin Mitchell, James Strahan and E. B. Attaway, all of whom were on the varsity and Sherffield Whaley, a red shirt, are the players involved.

"Their absence won't affect the ball club as much as it might affect their futures," said Viramontes. "All the dropouts I have seen in a lifetime as a player and coach would not total this many. It wasn't, I don't believe, a group action for as one announced his decision, it surprised the others.

"Our first workout after these boys left was a most responsive one. Not so much from the standpoint of having lost their teammates, but from an admirable approach in preparation for the upcoming games," Viramontes said.

Marvin Mitchell, a junior from Detroit, had played extremely well until receiving a broken cheekbone which caused him to miss four games. Only in the second game against Seattle University did he appear to have really recovered from the injury. He seemed to be despondent over not having played well and also expressed dissatisfaction with the grades he would receive for this semester's work.

Court Eyes Well Offset From ROW

Randall County commissioners Monday approved a resolution recommending that farmers offset section lines by 60 feet when digging irrigation wells.

The resolution was requested by the High Plains Underground Water Conservation District. This would be of benefit to the county when new road right of way is sought.

The court authorized advertising for bids for oil, gasoline and diesel for precinct vehicles and road machinery for 1965.

No action was taken on a request by County Health Officer Dr. Robert Jarrett for a raise from $10 a month to $50 a month.

Randall County accepted a plot of property adjacent the Randall County Junior Livestock Association Building.

A letter was received from Rockwell Manufacturing Company that the company is prepared to pick up eight voting machines on loan to the county for the past two years. Commissioners still are pondering over whether to purchase the machines.

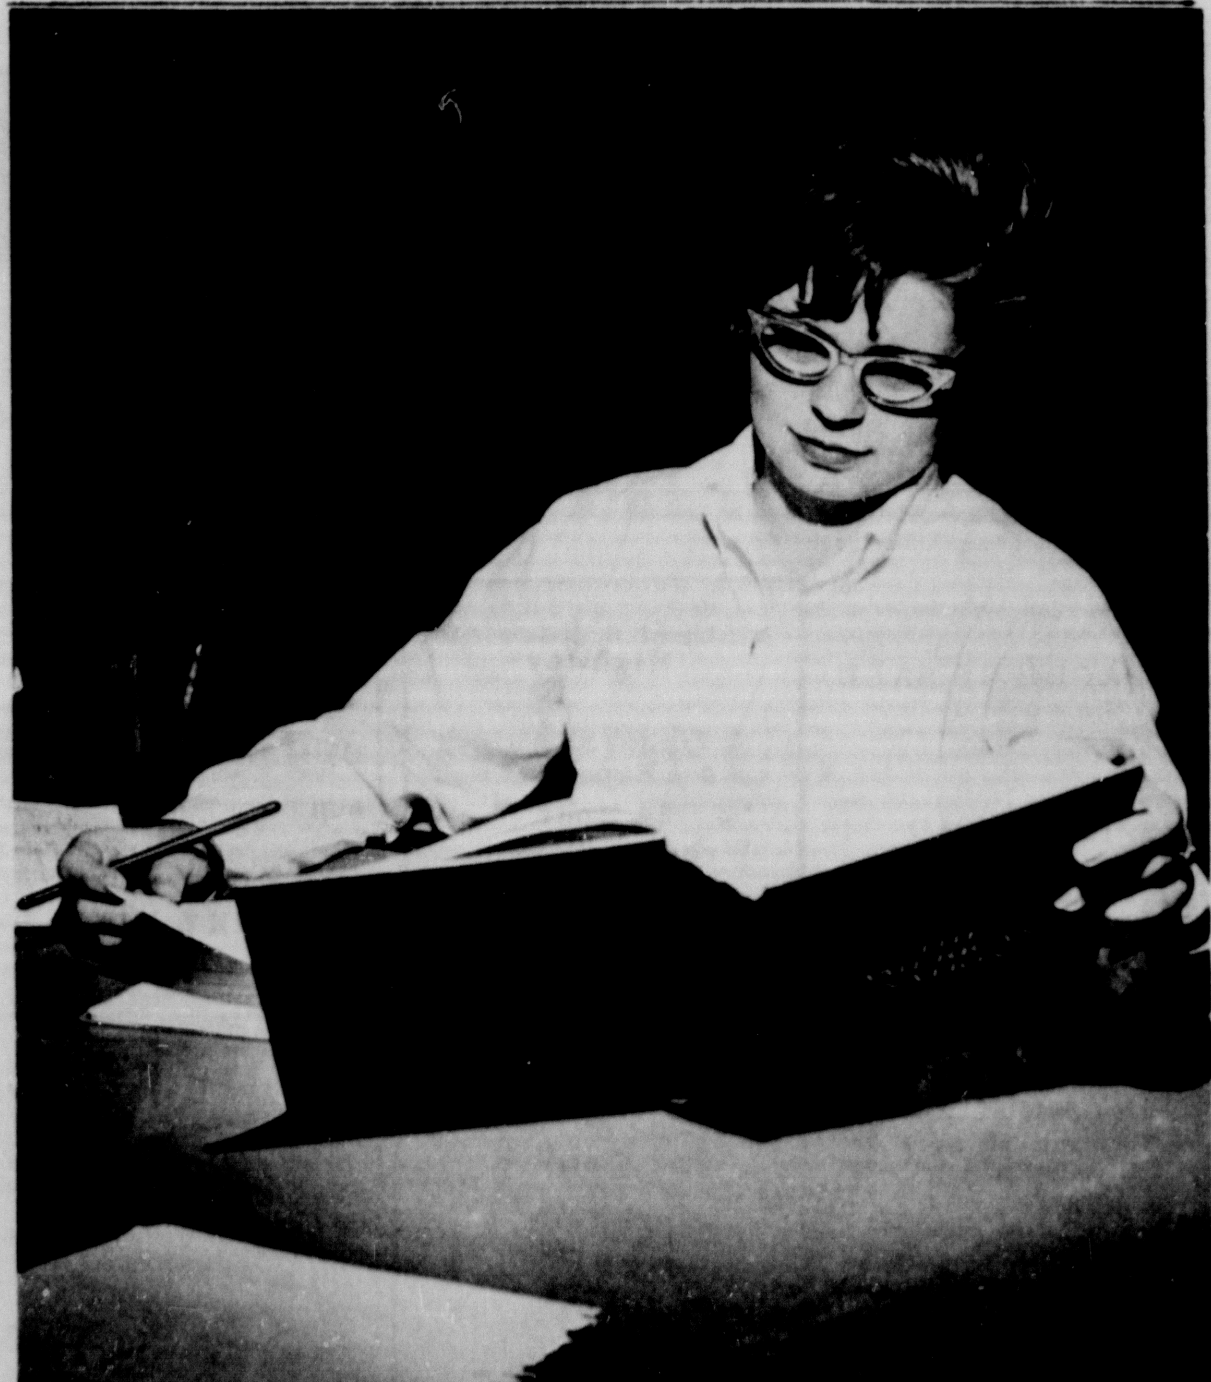
The court also voted to advertise for bids on a depository for county funds and for county school funds for 1965 and 1966.

Summer Bids Expected For WTSU

Bids will be let during the summer for three construction projects on the West Texas State University campus.

The projects are an applied science building for industrial education and agriculture, a building for the Kilgore Research Center, and a wing on the library.

Preliminary plans, drawn by Hucker & Parge, an Amarillo architectural firm, have been approved and working drawings are being drawn, according to Virgil Henson, business manager.



Mary Helen Ayres, Pampa, studies for a final exam in history. Miss Ayres is a junior and is a business education major. This is examination week at West Texas State University.

FROM THE CANYON RIM

We feel obligated to comment on a recent article by David Levens in The New Challenge, a Wesley Foundation publication on the West Texas State University campus.

Levens, who teaches advertising and statistics at WT, facetiously implies that those who think internal communism is a threat to the United States must believe in superman.

He pokes fun at Assistant FBI Director William Sullivan for his statement in November in which he said, "Two hundred communists, who tried to conceal their party affiliation, were among the 200,000 Negros and whites who marched to Washington last year in a civil rights demonstration. It shows how the communists exploited the civil rights movement."

Said Levens' article: "Just imagine! 200 communists exploited (i.e. according to Webster: took or gained unfair advantage) of 200,000. One thousand to 1. Even superman might find these odds a bit taxing."

He quotes statistics which purport to show that at the present time there are only 8,500 communists in this country.

He quotes former FBI Special Agent Jack Levine as saying the FBI has nearly 1,500 informants ---a ratio of one informant for every 5.7 communists.

We would remind Levens and his readers that there were only a handful of hard core communists in the group which overthrew the Kerensky regime during the Russian revolution.

The odds in that case were almost 10 million to one. We understand that even in Russia today only about 6 per cent of the population are members of the communist party and the percentage is even less in Red China.

Schooled as they are in agitation and subversion, it doesn't take many communists to wreak great mischief.

Levens says he recognizes the external threat of communism.

This brings up another point. There are not two communist threats, one domestic and harmless and the other foreign and formidable. There is but one threat, an international enemy with a foothold here in America.

To the dedicated communist there is no love of country, there is only communism. Lenin said, "I spit on Russia." The American communist by repeated treachery says in effect, "I spit on America."

By way of background, Levens says he is a liberal and an ardent admirer of Hubert Humphrey. He says he supports unequivocably the Americans for Democratic Action.

He says he believes this country should recognize Red China and open trade with that country. He says Chiang Kai Shek and his Nationalist Chinese have pre-empted Formosa from Formosans.

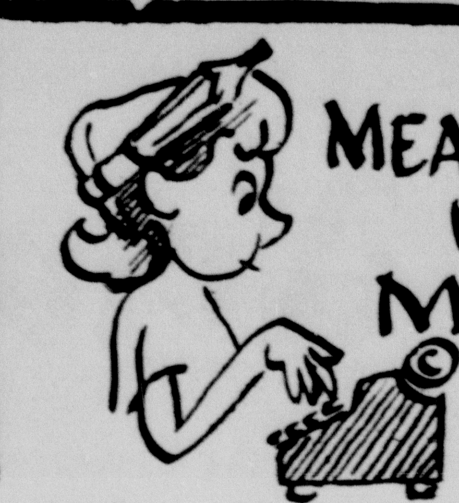
Among other things, Levens said he believes The New York Times is the greatest newspaper in the world, that things are not as bad under Castro as they are painted and that J. Edgar Hoover sees a communist at every turn and should be replaced as head of the Federal Bureau of Investigation.

* * * * * * * * * * *

David Levens has a right to what he believes. He has the right to express his convictions. Nevertheless, it is our opinion that David Levens is dead wrong and that if his convictions were universally adopted, this country would be in mortal danger.

Girl Scouts

Snappy 8 patrol of Girl Scout troop 14 met with their leaders, Mrs. J. C. Bellah and Mrs. Truett Hull Tuesday, Jan. 12, in Mrs. Bellah's home. Girls attending the meeting included Sheryl Bellah, Teddi Crager, Pattie Ormsby, Joan Standley, Nancy Winn, Kaysee Martin, Susan Hull and Jane Weidner. The group's activities included work on their Personal Health badge. They had refreshments, served by Joan Standley. Plans are being made for a health program for one of their badges.



MEANDERING WITH MARGO

Many humorous incidents crop up in a hospital, or perhaps they seem funny because they do occur in the confines of the hushed halls.

One such incident occurred last week in Neblett Hospital to a young mother, admitted for surgery.

The woman was brought to a room by a nurse and was left, with no instructions.

The girl wandered about the room for sometime, trying to decide whether to get into her bedclothes or remain in her street clothes.

Finally, after a 10-minute lull, she sat on the edge of the bed to await further directions.

A nurse (not the one who had ushered the woman to the room) scurried by the door and noticed the fully-clothed female sitting on the bed.

"We wish you would not sit on the bed. We might need to put someone in it," the nurse reprimanded.

"I'm the one that needs to be in it, if someone will just tell me it's all right to get in," the girl retorted in a rather confused tone.

She was rapidly put to bed.

My brief stay in Neblett Hospital was quite rewarding.

The entire staff, ranging from the doctors, nurses, office staff and technicians, were not only warm in their handling of patients, but very efficient.

The personal interest shown for each patient was in itself very comforting, and yet the sense of humor never failed.

Neblett is probably no different than hundreds of other hospitals across the nation. . except it is in Canyon, is made up of Canyon folks, is supported by Canyon folks.

This makes it a home-grown effort, and it is nice to know that the people working at Neblett Hospital are some of the top doctors and nurses in the area.

And if you don't believe it, just drop by and I'll be glad to expound on the subject.

Seriously, the staff was not only wonderful to me, but I marveled at the efficiency they had in handling every case that came into the hospital.

But through this well-trained armor of efficiency and speed, that spark of warmth was constantly shining.

My personal thanks to those folks.

Death Takes Mrs. Hancock

Mrs. Mary Samantha Hancock, 89 years old, died Monday in the LaCasa Convalescent home in Canyon.

She had been a resident of the home since June. Prior to that time she had lived with a son, Carroll Hancock of Happy. Mrs. Hancock also lived a number of years in Canyon.

She was born Sept. 12, 1875, in Woodland, Texas. She came to the Panhandle about 1904. Mrs. Hancock was married to E. S. Hancock, Sr., at Woodland in 1895.

Her husband preceded her in death in 1956.

Funeral services were held Tuesday afternoon in LaGrone Funeral Chapel. Officiating was Rev. Newton Starnes, pastor of Canyon First Methodist Church.

Burial was in Dreamland Cemetery.

Pallbearers were grandsons. They included Clyde Hancock, Darrell Davis, Othel Burnett, Bill Bransum, Willard Morris, Keath Waters and Charles Moore.

Survivors, other than the son with whom she had lived, include two other sons, George Hancock of Pampa and Eli Hancock of Tucumcari; a daughter, Eula Summit, Del Rio; two brothers, Smith Ridley of Claude and Sherwood Ridley of Las Animas, Colo.; and 12 grandchildren and 18 great grandchildren.

Andy Moreland of Canyon has been selected to take part in the Llano Estacado Council's annual report to the Governor Feb. 6.

ANDY MORELAND

The Camping and Activities Committee of the Council selected Andy as one of the five boys from the nine county council to take part in the ceremonies in Austin, as part of National Boy Scout Week, Feb. 7-13.

The son of Mr. and Mrs. Lee Roy Moreland, Andy is a member of Boy Scout Troop 66, is an Eagle Scout and has served as patrol leader and senior patrol leader in the troop.

He is also a brotherhood member of the Order of the Arrow, and serves as chapter secretary for the Randall District Chapter.

Andy is a member of the First Christian Church, and has earned the God and Country Award.

While in Austin, the representatives will meet with the Governor for formal report ceremonies Saturday morning in the House of Representatives and attend a Governor's Luncheon at the Driskill Hotel.

The council delegation will stay at the Driskill Hotel.

Accompanying the boys to Austin will be Louis Machuca, District Scout executive.

While in Austin, boys will tour the city, returning to their homes Sunday.

Representatives were chosen from boys who attended the National Jamboree at Valley Forge Pennsylvania last July.

Church Damage Still Unknown

Damage estimations to the Canyon Assembly of God Church are expected by today, Thursday, or Friday, according to Rev. A. J. Pettit, pastor of the church.

Pettit said this week that insurance adjustors had not estimated the cost of damage resulting from an early morning fire Jan. 10.

Extensive damage was reported in the fellowship hall of the church and the auditorium, both located in the south wing of the structure at 905 23rd Street.

Firemen fought the fire for more than five hours Sunday, Jan. 10 before bringing the blaze under control.

Water and smoke damage was apparent throughout the building. Roof fell in on the south side of the church over the fellowship hall.

Rebuilding figures will be known by the latter part of the week, Pettit said.

LETTER TO THE EDITOR

Mr. Troy Martin
The Canyon News
Canyon, Texas

Dear Troy:

If you are going to involve yourself with something that is none of your business in the first place, how about checking your facts first?

I withdrew my support of the journalism award for a high school journalist, also a little support for the college, because of a principle. . .not because of my like or dislike of any member of the faculty.

The college employed Louise Evans to teach a course in editorial writing, according to a story in the Amarillo paper. In my opinion, Louise Evans symbolizes yellow journalism not only in this area but nationally. I am dedicated to endless battle against her practice of journalism, that is, brainwashing the public via methods as evil as those employed by Adolf Hitler.

It may be impossible to do anything about the area editorial atmosphere during this generation. . .but I certainly am not going to help subsidize the propagation of this germ to the next. If West Texas State proposes to offer a course in Louise Evans' brand of editorial writing, then I am going to urge prospective journalists to attend school elsewhere.

You're a wizard, Troy, at taking things out of context. Your comment concerning the speed zone was a classic.

Yours very truly,
H. M. Baggarly

that the board make no change in its policy. The motion was unanimously approved.

In other business Tuesday, the board accepted the resignation of one teacher and hired two others.

The board also reappointed five members of the Equalization Board and added a sixth member.

The resignation of Mrs. Betty Eppinette, an elementary school teacher, was accepted. Her replacement will be Jo Carol Hickox, who holds a B. S. degree from West Texas State University. The board also hired Cagel Dean Davis, who holds a B. S. degree from Texas Tech, as a science teacher for junior high school.

Tom Black was the sixth member appointed to the Equalization Board. The members reappointed are Tommy Triplett, A. B. Holt, Joe Abbott, Conway Kuykendall, and Hosea Foster.

In discussing the addition of one or more members to the Equalization Board, superintendent Huelyn Laycock said he had called an attorney connected with the Texas Education Agency to find if legal limits were placed on the size of the board.

The attorney informed him that a three-member board was technically legal but that the courts, in making this ruling, had not thrown out work done by larger boards.

The school board indicated in their discussion a wish for fair representation on the Equalization Board while it completes an expected heavy work load. School board members hope to meet with the equalization board within a week.

During the meeting, LaGrone suggested that a letter be sent by the board to Canyon public school students thanking them for their self-discipline.

He said that recent bad publicity had caused many students to feel a stigma had been placed on the entire group, but that the school principals were unanimous in saying that "99 per cent of the students are top-notch." The board agreed to send such a letter.

In other business, the board approved the district's financial accounts, the enrollment summary, the 1965-66 school calendar, the superintendent's contract, and a report from the accreditation committee of the Texas Education Agency described as "highly complimentary."

Deeds To Lots Given Mrs. Cable

Icing was added this week to the family cake of Mrs. C. B. Cable and her seven children.

Members of the Randall County Emergency Unit presented Mrs. Cable with deeds to two lots west of her home in the 200 block of Fifth Avenue.

Mrs. Cable, widowed last April when her husband died of accidentally self-inflicted gunshot wounds, and her children were given a lot and a home by Canyon and Randall County residents.

The home was officially presented to her, redecorated and partially furnished, in early November.

Now two more lots have been added and plans to have the lots fenced are in the making.

"The lots will be fenced by the emergency unit as soon as they can afford to have it done," said Justice of the Peace W. A. "Bill" Wilson.

Deeds were presented Monday night at a dinner for the emergency unit members at the Umbarger Parsish Hall.

Unit workers earned money for the deeds by parking cars at the West Texas State University football games and ushering at the wrestling matches in Amarillo.

"They wanted Mrs. Cable to have the lots so she can do some gardening, and will have a play area for the children," Wilson noted.

Mrs. Cable does baby sitting to earn extra money for her family.

"The emergency boys felt the area needs to be fenced so the children can play in the large yard and Mrs. Cable can keep an eye on them," Wilson continued.

The gift of the lots was one of many donations and gifts to the Cables, through the past nine months.

And it was the icing to the cake for Mrs. Cable. Folks in Canyon got the lot, donated the house and moved it to the lot on west Fifth Avenue. Then work crews got the house in shape for the family.

Another nice gesture by the folks of Canyon, and the Cables do appreciate it all.

Sunday afternoon guests in the Arvin Triplett home were Quenton Ely and Johnnie Leslie of Amarillo and Richmond Graham of Canyon. Also Tommy McClure of Amarillo.

Don Triplett has returned home after spending several weeks vacationing in Portland, Oregon, and Denver, Colorado.

Eagles Seek Upset In Dumas Friday

"We are looking forward to upsetting Dumas there Friday," were the encouraged words of head basketball coach Roy Kieval Wednesday.

Kieval's Eagles fell to Hereford Tuesday evening, 87-64, bringing their season to 9-9, and their district record to 1-2.

But the head mentor was encouraged over the prospects of facing Dumas Friday at 8 p.m.

"I think we can stay with them, and I'm looking forward to upsetting them. We have the material to cope with their size and I think we have the type of team capable of beating Dumas," Kieval noted.

Against the Whitefaces, Canyon shot a mere 40 per cent from the field and a 65 per cent from the foul line.

"Our main trouble was not getting the ball. We barely out-rebounded them, 38-36.

"We just didn't play good game. They outhustled us. They made 11 recoveries to our 4. That shows they outhustled us," the coach pointed out.

"We made too many inexperienced mistakes. We got behind and we couldn't catch up," he continued.

Tom Lair led scoring with 17 points followed by Ricky Bacon with 13, Tommy Higgins with 12, Joe Moore with 10 and Richard Gardner with 6.

Next Tuesday Canyon will host Tulia, leading district contender. Tulia has a 3-0 district record.

Last Friday Canyon rolled past Muleshoe 68-53 shooting 50 per cent from the field, and 44 per cent from the gratis line.

"This was the first time we hit 50 per cent from the floor, Kieval explained.

Lair again led the scoring with 20 points. Higgins followed with 17, Moore, 13, and Bacon with 12.

Mr. and Mrs. Wayland Angel had guests over the week end including Mr. and Mrs. Allan Angel and Mrs. Elsie Bullard, all of Plainview, and Mrs. Mary Bullard.

Allan Angel is a brother of Wayland Angel. Elsie Bullard is Mrs. Angel's sister, and Mrs. Bullard is Mrs. Angel's mother.

State guard ever to shoot over 50 per cent from the floor for a season, had been having a miserable season. His field goal percentage of .385 and free throw percentage of .565 were the lowest among the regulars. However, personal problems at his Houston home seemed insoluble from this distance so he decided to leave school.

The other varsity athlete, Attaway, also of Houston, had already received notification he was failing at least two classes and decided not to wait for the grades to come in. His progress on the court had been good and it appeared he would be of considerable help next year.

Whaley, a red shirt who was one of the leading scorers on the 1963-64 freshman squad, decided to transfer to a school where there would be more social activities.

To compensate for the departures, Viramontes has activated Dale Burrows, Wallace Franklin and Harry Lisle.

Burrows, a senior from Albuquerque, has been freshman coach and Viramontes will assume this task also. Franklin and Lisle were being red shirted along with Whaley. Franklin is a 6-1 sophomore from Lamesa where he was an all-state performer his senior year. Lisle, a Canyon grad, won three Eagle letters and co-captained the squad his senior year.

pounds and was purchased at 75 cents a pound by Floyd Tomlinson.

One of the happiest kids in Randall County last week end was Randy Breitling, a 7-year-old first grader. Exhibiting for the first time he piloted his lightweight Hampshire to the grand championship of the swine show and then sold him for $2.05 a pound to Texas Tractor & Equipment Company of Amarillo. The grand champion weighed 189 pounds.

Randy is a 4-H Club member and takes a lively interest in raising swine. He's all for reinvesting his capital in the business.

"I guess I'll use that money to build a new pig barn," he opined Monday. "The one we've got is not very good."

Proving that a good pig barn is not absolutely essential to raising good pigs, Randy's brother, Doug, 15 years old, showed the reserve champion, also a lightweight Hampshire. The reserve champion was purchased by Consumer's Fuel & Elevator Association for 50 cents a pound. The animal weighed 190 pounds.

In the beef heifer division, Phil Masterson showed the champion Hereford and George Cox the reserve. Rhonda Hales showed the champion Angus and Rodney Hales the reserve.

Phil Masterson won the showmanship award for the division.

Champion female of the horse show was exhibited by Troy Roach. Phil Fletcher exhibited the champion stallion under 2 years old. Dawayne Patterson exhibited the champion gelding.

Champion pony was shown by Terry Reynolds. Troy Roach was awarded the senior showmanship trophy and Bill Griffin was awarded the junior showmanship trophy.

Champion Duroc swine was shown by Dan Rahlfs and the reserve Duroc was exhibited by Steve Cooper. Randy and Doug Breitling showed champion and reserve champion Hampshire respectively.

George Cox showed the champion Poland-China swine and Mike Tilger exhibited the reserve champion. Mark Landrum exhibited the champion spotted Poland-China with Ronnie Larramore showing the reserve.

Champion crossbreed swine was shown by Charles Sykes and the reserve by Alec Gordon.

Wickie Culp was awarded the swine showmanship trophy.

Vince Wirt received the showmanship award in the steer division. Allen Fletcher won the showmanship award in the sheep division.

The novice showmanship of the show trophy went to Nedra Ann Turpin.

Kyle Powers received the first George Schaeffer award given in memory of George "Farmer" Schaeffer who was active in promoting the Junior Livestock Association until his recent death.

Judging the dairy show was Ralph Harbin, instructor in the agriculture department at West Texas State. Johnny Fuston, a senior agriculture student at WT and a member of the livestock judging team, judged beef heifers.

Pete Martin, Amarillo, American Quarterhorse Association representative, judged the horse show. Gene Gaston, agriculture teacher from Springlake High School, judged the swine. Melvin Gregg, sheep breeder from Plainview, judged the sheep show and steers were judged by Corliss Curry, cattle breeder from Happy.

Auctioneers for the sale were Bill Clifford, Darrell Adams, Bill Wilson and Meade Michael.

Association president is Wesley Cox and Richmond Hales was general superintendent for this year's show.

comparison to 192 two years ago," Boyett stated.

"These crowded conditions nearly make the construction of additional facilities a necessity," Boyett added.

"The reasons for our change in location include a comparison of the costs of remodeling as compared to building in a new location and a better location from which to minister to the needs of the people. We anticipate a church enrollment of 600-700 people within ten years."

The decision to build is a culmination of planning begun in October, 1964, by members of the planning and survey committee.

"One of the interesting things to the congregation," Boyett noted, "is that the committee did not come to any conclusions when they presented the facts to the congregation. This is unusual since the entire congregation made the decision, and not just the committee.

Committee members include LeRoy Miller, chairman, Bob Chambers, Bob Brown, D. C. Lindley, Russell Thompson, Ray Bible, and Jim Stipe.

Deputies Ray Tinsley, left, and Calvin Costley display bullets cast in molds at the sheriff's office. In spare time the deputies reload cartridges for use on the target range. Bullets are made with lead from old tire balance weights.

Officers Save County Cash With Reloading

"A weapon is only as good as the man behind it."

This is a statement that is, or should be, repeated by every law enforcement officer in the country.

But, as plinkers know, it takes practice to be able to hit a big, stationary target.

Policemen, unlike plinkers, are seldom concerned with big, stationary targets--their shooting is done under poor light at small moving targets, ones that shoot back.

So when Calvin Costley, Randall County sheriff's deputy, talks about the man behind the weapon he's talking about a matter of life or death.

"If a man is going to carry a weapon, he'd better know how to use it," Costley said.

But while Costley, and other law enforcement officers, find a wealth of satisfaction in their work, they don't expect a pot of gold at the end of the month.

A problem all officers face is acquiring and keeping proficiency with the weapon carried on duty. Cartridges for a heavy-caliber pistol are expensive and an officer's salary may not stretch that far.

But an officer who can't use his weapon may lose his life when he faces an armed criminal.

For the officer, there's only one answer--firing hundreds of rounds on a practice range.

"An officer might carry a weapon all his life and never have to pull it, but the possibility is always there," Costley said.

Sheriff Slim Johnston and his six deputies made their own answer to the problem.

They reload spent cartridges with equipment installed in the sheriff's office. The reloaded ammunition is stored in the gun locker for the men's use when they have time to go to the police target range near the city dump.

The reloaded ammunition costs about 2 cents a round. Factory ammunition costs more than four times as much--for .38 special the price is $4.40 for a box of 50, and for .357 magnum the cost is $5.50.

Two of the deputies carry the heavier sidearm and the others carry a 38-caliber pistol. They also occasionally fire various types of rifles to keep their hand in.

If factory ammunition were used for target practice, Costley, for example, would spend $22. a month. He fires an average of 200 rounds a month at the range.

Every man in the sheriff's department is competent with the reloading equipment. The reloading is done whenever there is a lull in the work--during bad weather or when the deputies are waiting for calls at the office.

Because Costley and Deputy Ray Tinsley are in the Canyon office more than the other deputies, who work out of the Amarillo office, they do most of the reloading.

The department doesn't see how much of the cheap ammunition it can use up, the men just fire as much as required to stay in practice.

A marksman improves only with regular practice, not a lot at one time, Costley pointed out. He added, "Too much isn't good, but none is a lot worse."

The cost of the reloading is kept down by tricks of the trade, like melting automobile wheel balance weights supplied by service stations for bullets.

The reloaders have found that a mixture of 1/3 pure lead and 2/3 wheel weights makes a satisfactory bullet.

The brass is reloaded an average of five times. Some cartridges may last longer, but the reloaders have found fives times is a safe average.

Factory ammunition is carried on duty by everyone in the sheriff's department because it's loaded under standard conditions, but the reloaded ammunition is perfectly reliable on the target range.

The department has been reloading ammunition for practice about seven years. The extra shooting it allows the deputies is, as Costley said, "a form of life insurance."

Because, as Costley said, "A pistol is an officers best friend, but if it's used carelessly it can have you picking cotton down at the state penitentiary."

Mark Landrum Wins In His First Show

Mark Landrum, 15, was brushing his spotted Poland China with short, nervous strokes. The 18th Annual Randall County Junior Livestock Show and Sale was his first.

In another part of the livestock building, the swine being shown were milling around in the arena with their youthful 4-H and Future Farmers of America owners trying to keep up.

Mark was saying that the five-month-old pig, which he once named Paula, was the first and only animal he had bought to show.

"Hogs are easier to get along with," he said. Then he paused, listening to the squealing swine and the slaps their owners gave to move them, and said, "Well, they're not the easiest animal to get along with, but they're a little cheaper."

Mark, the son of Mr. and Mrs. H. L. Landrum, who live west of Canyon, said care of the hog required about 30 minutes a day and that he had put in 50 hours with the animal since buying it.

Other youthful swine owners were heading their animals out of the arena and chasing them toward the pens. They took the ribbons the judges were awarding at the gate.

"They'll reach for the ribbons and leave the money every time," one spectator said.

The owners, with help from their friends, prodded and shoved the swine toward the pens. The pigs wanted to run every direction but toward the pens.

One man, new to livestock shows, asked how children who weighed less than the pigs got them in "those little ole pens."

Someone answered, "If they don't want to go, you just grab 'em by the tail and throw them in." The questioner stared unbelievingly.

It was almost time for Mark to show his pig. He was saying between brush strokes that even if he sold Paula at the market price he would clear what he spent on raising her.

After he sells Paula, he wants to buy another, probably a Poland China, to breed so he can start raising hogs.

Mark's class was called to the arena. He drove his hog up the aisle between the pens of restless hogs, where the contestants were putting the final touches on their animals.

Four tiny girls were in a pen with one hog that seemed more interested in sleep than being brushed. In another pen, a boy about one-fourth the size of the hog tired of shoving it and gave it a punch on the flank. He looked at his hurting hand in surprise.

Mark, wearing his Canyon FFA jacket, became as cool as a professional showman when he entered the arena. He was the first there.

Then the other owners arrived and in a few minutes the judging was over.

Mark was told by the judge, "First pen."

As he collected his blue ribbon and a handful of crisp dollar bills for first place, Mark said, almost embarrassed, "I didn't expect to win."

Then he shoved Paula into the arena again and came back with a purple ribbon. He'd won best of breed in his first show.

Asked if he thought he'd get more than the market price at the sale, Mark grinned and said, "I think so."

Lt. Alvin Morris, son of Mr. and Mrs. Ed Morris, recently completed Language School at Fort Ord, Monterey California. He was home for Christmas leave while enroute to North Carolina for additional training. He will then go to Panama for a 2 or 3-year tour of duty.

Rabinofs Appear Jan. 31 With CCCA Performance

Canyon Community Concert Association will present its second concert of the season Jan. 31 with the appearance of the Rabinofs.

The concert, which features one of the most popular husband and wife violin-piano duos on the stage, will begin at 3 p.m. in the Canyon High School Auditorium.

The versatile team's repertoire includes practically the entire piano-violin sonata literature, plus double concertos ranging from Bach through Chausson, to works they have commissioned by such composers as Robert Russell Bennett and Martinu.

Among their unusual concerts during recent seasons were performances of all ten Beethoven sonatas for violin and piano played in a single day in New York's Town Hall.

The Rabinofs' current tour encompasses a three-month itinerary through Western Europe, followed by return engagements in Israel, where they have had some of their greatest successes.

Benno Rabinof, a native New Yorker, is the last in the line of Leopold Auer pupils, which also included Heifitz, Elman and Zimbalist. He was introduced to New York concert audiences by Auer himself.

Mrs. Rabinof, who made her debut in Paris at the age of 18 as a pupil of Paderewski and Serkin, is counted as one of the foremost women pianists of the day, as well as the composer of more than 150 works, including instrumental solos, chamber music, and orchestral suite, and an opera.

She is also one of the few pianists who plays accompaniments and sonatas by memory.

The appearance of this exciting husband and wife violin-piano duo in Canyon is an event welcomed by all who appreciate and enjoy the kind of musicianship that combines technical mastery with sensitive and understanding comprehension.

The Tiger of the year was just named Car of the Year by Motor Trend.

If that isn't enough of a hint, try Quick Wide-Track. (This is their year.) Or Turbo Hydra-Matic, the new transmission you can order that does away with roaring between shifts. Coupled with the quicker engines for the '65 Pontiac, it saves the roaring for whenever you need it. When you don't, the extra-potent engines let you just loaf along. And this loafing gives you the kind of economy you wouldn't expect from a looker like the '65 Pontiac. See your Pontiac dealer. He'll show you all 32 Pontiacs that are the "Car of the Year." Mrs. Ray Tinsley Cook For Houseful Of Men

Readers share a recipe for Kentucky Prune Cake this week with our cook, Mrs. Ray Tinsley.

The Tinsleys have lived in Canyon for nearly nine years, first moving here when Ray went to work as a deputy for Randall County Sheriff's Office.

"Before that," notes Mrs. Tinsley, "Ray and I lived in Amarillo and he was employed with the Amarillo Police Department.

The Tinsleys, Ray and Erl, met when he was an airman stationed at Amarillo Air Force Base.

"We married shortly before Ray went overseas in 1945," she adds.

The Tinsleys, married 19 years, have four boys, "equal to 16 children in everything, clothes, food, just everything", Erl laughingly states.

"They start eating as soon as they get home, and I think it continues until the next morning, when they go back to school."

Michael, the oldest boy, is 16 1/2, while David is 15. Kelly is 12 and Christopher Dean, otherwise known as Kippy, is 3 1/2.

"Kippy, our youngest, is just full of questions," adds Erl. "We've decided he must be very intelligent since when you ask him why he asks so many questions, he answers with another question."

"Kippy is really a character, and it seems that he thinks of himself really as a short teenager---for instance, with The Beatles. He knows them all, Paul, John, George, and Ringo. I guess that the only George he has ever known is George the Beatle. One day, David had a dollar bill, and Kippy asked him who that man was on the front. 'Oh, that's George,' replied David, not really thinking too much about it. Well, Kippy took a good long look at it and then said, "Gee, it looks more like Paul to me.", You can imagine the laugh that got," says Erl.

"The family dog, Puppo, is nine years old, but sometimes acts as if he's still a puppy," Erl notes. "When someone comes that he doesn't know, he will go and sit behind a chair and watch them to be sure they're safe. Then he'll come out."

Erl is a native of Amarillo and has a sister, Mrs. Maurice Mann, also of Amarillo, whose husband is a doctor.

Working 10 hours a day, five days a week doesn't seem to faze Erl. "I work in communications at Amarillo Air Force Base, and have since we first moved to Canyon," she states. "Our shifts change every few weeks, so some weeks I work midnight to 8, some 8 to 4, and some 4 to midnight."

In her spare time, Erl is a member of Golden Spread Home Demonstration Club, and participates in St. Ann's Altar Society. "Then, I've also been a den mother for four years," she notes.

The Tinsleys are members of St. Ann's Catholic Church.

"We like living in Canyon so much," says Erl. "I really feel that Canyon is an education-minded town. The entire atmosphere is geared to education, and the schools are so good, because the teachers have time to be interested in the students. You know, lots of people think I work for WT, I'm always so enthusiastic over it."

"I'm what you might call the family photographer," she says. "It's gotten to the point now where we just have drawers and boxes full of pictures, but I'm always taking more."

"Another of my hobbies, almost a prerequisite I suppose, is cooking. I really love to cook, but oh, I hate to clean up the mess! Decorating cakes is a favorite of mine, but with a houseful of men, they are far more interested in quantity than quality."

The recipe for Kentucky Prune Cake will provide our readers with both quality and quantity, we feel sure. Try it with us this week and let us know how you like it.

KENTUCKY PRUNE CAKE AND ICING:

1 1/2 c. sugar

1 cup Wesson oil

3 eggs

Blend and add sifted dry ingredients alternately with milk to above.

(Dry ingredients)
2 c. flour

1 t. cinnamon

1 t. allspice

1 t. nutmeg

pinch of salt

Add dry ingredients alternately with 1 cup buttermilk. Now add 1 tsp. vanilla, 1 cup cooked, pitted prunes, and 1 cup chopped nuts.

Bake in greased, floured 9 x 13 pan, 45 minutes or longer at 300 degrees.

Icing for Prune Cake

1 c. sugar

1/2 c. buttermilk

1/2 t. soda

1 T. white corn syrup
1/4 stick oleo

Bring to slow boil. Cook slowly until it thickens slightly (about 5 minutes). Pour while hot over cake and let run down sides of cake

Mrs. Ray Tinsley, shown here at her kitchen sink, admittedly hates to clean up after she finishes cooking, but its "all in a day's work" for this ambitious, fascinating Canyon resident. The Tinsleys, Ray and Erl, are parents of four sons, Michael, David, Kelly and Christopher.

Catholic Liturgy Changes Not "New" To Local Parish

BY PHYLLIS BONNIE

The majority of Roman Catholic churches were profoundly affected by changes in the Liturgy made last year in Rome---one exception---St. Ann's in Canyon.

A forward moving church, which dedicated its new sanctuary and church plant within the past year, St. Ann's is, in the words of Rev. George H. Sallaway, S.T.L., "an unusual parish".

An example of this, Sallaway continues, "is the fact that what most of the country regards as new and obligatory in regard to ritual, has been done here for several years."

"We have several laymen who serve as commentators at Mass. That is, they read the scriptures. Before the Second Vatican Council (which made liturgical changes), they read in English the same passages I was reading in Latin, at the same time. Now, they read in English alone," he said.

Assisting with jobs of reading are Joe Gidden, Eugene Grabber, Joe Frank, Tom Depperschmidt, Hubert Oppe, Ronald Kershen, O. A. Carroll, Harold Irlbeck, and Jimmy Green.

Major liturgical changes are in the mass.

"The Mass is divided into two parts", says Sallaway, "The Liturgy of the Word, and the Sacrifice itself. The Liturgy of the Word, or foremass, includes prayers of contrition, plea for mercy (Kyrie), praise, (Gloria), petition, epistle or lesson, gospel, sermon and creed. It is the foremass that is now almost entirely in English.

"Holy Mass", Sallaway noted, "is the sacrifice offered by Christ and his Church through which we honor and propitiate God by joining ourselves to the Sacrifice of the Cross, really representing that identical, infinite Sacrifice in an unbloody, sacramental way.

"But", adds Sallaway, "even though the changes were so drastic for many churches, this parish was prepared to an extent. Our parishoners are not as set in habits as many churches are, and therefore, they would like to have more changes rather than taking a stand on the current revision as a 'big change'. In other words, the 'new mass' isn't new in Canyon.

"This is somewhat of an advantage to us, because now we can go about our purpose of a greater perfection of prayer, rather than, as some may say, 'learning new tricks'."

Changes went into effect Nov. 29, the first Sunday of Advent, which begins the church year.

"Really though, one-half of the changes already were in effect, inasmuch as they were legal," Sallaway added.

"The new constitution on the Sacred Liturgy has not only renovated the structure of the Mass and unleashed modern tongues in prayer and proclamation, but it has rejuvenated the original doctrinal balance of Mass," Sallaway noted.

"One of the portions of the Constitution specifically states that, 'The full and active participation by all the people is the aim to be considered before all else, for the Liturgy is the primary and indispensable source for which the faithful are to derive the true Christian spirit.", he added.

Other changes effected by the third session of the Second Vatican Council were proclamation of Mary as "Mother of the Church" and a statement concerning Jewish and Orthodox churches.

By MRS. J. W. WESLEY

We talked with our former pastor, Rev. Lloyd (Red) Garrison Monday morning. He was in Happy and had attended the golden wedding celebration of his parents near Hartley Dec. 27 and then went to Dallas where they attended several church services at First Baptist Church. Then they came back through Plainview where daughter Annie is a freshman. Their son Tommy is a senior at Yakima High School in Washington and will graduate in June. He noted that they have 192 enrolled in Sunday school and the school closed Wed. Dec. 16 owing to high water. The family left for Texas that afternoon, beginning their 2000-mile return trip Jan. 18.

We visited our children, grandchildren and great grandchildren over the past weekend. Thursday we went to Lubbock and visited with Mr. and Mrs. Arlen Ray Wesley and Kyle Ray and Lydia Ann. Thursday evening Mrs. Darla Ann Parker and daughter Dennette came over and visited for a while. Her husband, Butch, is a student at Texas Tech and had to study for mid-term tests. Friday morning we went to Brownfield where we visited with the D. L. Whitsons and Elvin Wesleys until Monday morning, then came by Olton and had lunch with Mr. and Mrs. Joe Johnston. Mrs. Johnston was the former Annie Wesley, a granddaughter of old Uncle Jim and Aunt Annie Wesley. She was just recovering from a broken knee, sustained when she stumbled over a foot scraper. Their youngest son, Gerry, is a junior student at Texas Tech, and Bobby and his family are in Idaho where he is working.

Richard Evans is having another waiting period for his eye to heal so he can be fitted with glasses.

Letha Patterson visited Wednesday afternoon with Mr. and Mrs. J. W. Wesley.

Word from James Roberts of Albuquerque. He is out of the hospital, but in a wheel chair. He will re-enter the hospital soon.

Several children and grandchildren of Mrs. Mittie Nann were in the floods in northern Oregon. No one was hurt, but supplies had to be brought in by pack train. She is a sister of Mrs. J. W. Wesley and Mrs. G. E. Wesley and has visited here several times.

It's a girl! The new baby of Mr. and Mrs. Bobby Gaewthreaux was born Jan. 14 in the base hospital at Fort Worth. Her mother will be remembered as Nan Earyle Shipman. Grandparents are Mr. and Mrs. Hollis Shipman, great-grandparents, Mr. and Mrs. G. E. Wesley. They have one other daughter, 5-year-old Patricia Nan.

Mrs. Darla Ann Parker and daughter Denette had a narrow escape recently when they awoke during the night ill from gas fumes.

Mr. and Mrs. Richard Evans and Mr. and Mrs. G. E. Wesley visited recently with Mr. and Mrs. Jim Williams and Nancy who live near Channing.

Mr. and Mrs. J. W. Wesley attended the livestock sale Friday in Tulia and had lunch with Mr. and Mrs. Troye Langston and Jimmy.

Jerry Bob and Robert Langston and children Denise and Bob have recently moved to the Rickwartz place north and east of Happy.

Mr. and Mrs. Richard Evans visited with Mr. and Mrs. J. W. Wesley last Saturday evening and several games of 42 and Mexican dominoes were played.

D. K. McGehee visited Saturday morning with J. W. Wesley.

Visiting for several weeks with the Lowell Harrisons are her parents, Mr. and Mrs. Walter Maher, and her grandmother, Mrs. Eugene Hotchkin. The Mahers and Mrs. Hotchkin are residents of Lehigh Acres, Florida.

Kappa Alpha pledges from West Texas State University spent an afternoon last week with the residents of LaCasa Canyon Convalescent & Rest Home, 2623 12th Ave., to fulfill the requirements for an annual pledge project. Above are the pledges in a lively domino game with one of the residents. From left, those shown are Elo Merton Myers of Canyon, J. R. Bonds of the nursing home, Milton Travis Kent of Borger, and Paul Wallace Johnson of San Angelo.
